5G base station locations in South America

Overview

Will 5G SA be available in Brazil?

Moving to cloud-native infrastructure will be crucial to enable 5G standalone (5G SA) deployments. As is the case globally, most initial 5G deployments in Latin America have used a non-standalone (NSA) architecture. 5G networks in Brazil are a notable exception. 5G SA availability will increase in other parts of the region, however.

How many countries in Latin America have 5G services?

As of March 2023, eight countries in Latin America had launched commercial 5G services. The number of 5G connections is forecast to grow steadily over the next couple of years, before accelerating in the second half of the decade as new 5G markets go live and existing networks expand to cover new areas.

Where is 5G SA available?

To date, 5G SA is only available in Brazil and Colombia in the region, with the former home to a much larger rollout of 5G SA networks. All major operators have deployed 5G SA in Brazil after the telecoms regulator issued obligations for 5G SA rollout as part of the 5G spectrum auction.

Is 5G a good idea for businesses in Latin America?

There is also positive sentiment towards 5G among enterprises in Latin America. GSMA Intelligence research shows that enterprises in the region across all verticals find new technologies such as 5G, private networks, massive IoT, edge and slicing compelling to advance their digital transformation.

What is 5G Americas?

5G Americas provides global, North American and Latin American statistics relating to 5G and LTE networks. The information provided here is based on data provided from Omdia 's extensive database of network-related statistics.

5G Americas is an industry trade organization composed of leading telecommunications service providers and manufacturers.

Will 5G increase CapEx in Latin America?

Mobile operators in Latin America have invested \$54 billion in capex over the last five years – mostly on deploying and expanding 4G networks. The rollout of 5G networks across the region is expected to drive a slight increase in capex levels, but a spike is unlikely.
