

Are there any power stations in the South

Overview

In which states does Southern Power operate?

Southern Power and its subsidiaries own facilities operating or under construction in 14 states: Alabama, California, Delaware, Georgia, Kansas, Maine, Nevada, New Mexico, North Carolina, Oklahoma, South Dakota, Texas, Washington, and West Virginia. Southern Power has a generating capacity of more than 12,490 MW in these states.

Where can I find a power plant map?

Access the map [here](#). Synapse has developed a free-to-use interactive map of power plants in the United States using data from the U.S. Environmental Protection Agency. This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the country.

Are all South London power stations still standing?

All but one of those South London power stations were decommissioned during a period between 70s to the early 80s, and only some of the buildings are still standing. These structures, however, were quite stark and significant, and though not all of them were quite as massive as Battersea, they still stood out on the skyline.

How much electricity does South Carolina generate?

In 2022, South Carolina had a total summer capacity of 24,286 MW through all of its power plants, and a net generation of 98,709 GWh. In 2023, the electrical energy generation mix was 54.6% nuclear, 23.8% natural gas, 14.9% coal, 2.7% solar, 2% hydroelectric, 1.9% biomass, and 0.1% petroleum.

How many nuclear plants are there in South Carolina?

In 2023, the electrical energy generation mix was 54.6% nuclear, 23.8%

natural gas, 14.9% coal, 2.7% solar, 2% hydroelectric, 1.9% biomass, and 0.1% petroleum. South Carolina is the nation's third largest producer of nuclear power, with four nuclear plants.

Where can I find data on power plants?

Data is included for all power plants that were operating from 2018 through 2023. See the map link below for more information on sources and notes. Access the map [here](#). Synapse has developed a free-to-use interactive map of power plants in the United States using data from the U.S. Environmental Protection Agency.
