

**SolarMax Pro Energy Storage Systems**

# **Bahamas Solar System Home Cost**

## Overview

---

The average cost of solar panels in Nassau is approximately \$3.04 per watt, making a typical 6000 watt (6 kW) solar system around \$12,778 after claiming the 30% federal solar tax credit available [1]. 2. A full solar system for a home in the Bahamas is likely to cost no less than \$15,000 [5]. 3. How long does a Bahama solar installation take?

Bahama Solar installs: Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Installation Steps Monitoring insures your solar panels are working properly by tracking the output of your solar system.

Who is Bahamas solar?

At Bahamas Solar we take care of your project from start to finish. Offering full turnkey systems for all residential and commercial operations. Serving all The Bahamas, from Nassau to the out islands. We offer customized solutions tailored to your specific needs. The first step to going solar is a site assessment.

How much does electricity cost in the Bahamas?

With respect to electricity rates on the affected islands, BPL charges between 10.95 and 14.95 cents per kWh, while GBPC charges between 17.56 and 26.06 cents per kWh. Electricity prices in The Bahamas also include an additional varying fuel surcharge based on the cost of the fuel used in generating power during the relevant period.
