

SolarMax Pro Energy Storage Systems

Battery cabinet frame manufacturer

Overview

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

What is a C&C power battery enclosure?

C&C Power Battery enclosures are configured to meet the need of all types of applications. Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of your critical facility.

What are external battery racks & cabinet design encasing solutions?

Our External Battery Racks and Cabinet design encasing solutions are a premium brand that offer industry-standard features in custom design measurements at competitive pricing. They can accommodate various combinations of Batteries, up to maximum number of strings for complete battery ranges.

Are Arimon battery racks factory assembled?

All battery racks ship factory assembled and fully tested. Arimon front access battery racks, in 32 and 40 battery configurations, are designed to fit multiple battery sizes from a wide range of manufacturers including NorthStar Battery, East Penn (Deka), EnerSys and C&D Technologies.

What is a cast hybrid battery enclosure?

Utilizing advanced cast aluminum alloys that are heat-treated for enhanced strength, these enclosures are produced on high-capacity die casting machines to ensure precision and reliability. Magna's Cast Hybrid Battery Enclosures are designed to provide robust and reliable housing for hybrid vehicle batteries.

What is a battery rack made of?

All battery racks are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors. Lexon covers can be added to the sides, back and front. Arimon UPS backup battery racks offer breaker or fuse protection up to 800 Amps.
