

SolarMax Pro Energy Storage Systems

Congo Kinshasa outdoor power supply specifications and models

Overview

What type of plug is required in Congo-Kinshasa?

In Congo-Kinshasa, the power plug sockets are of types C, D, and E. Therefore, you may need a power plug adapter to use devices with different plug types.

What is the standard voltage in Congo-Kinshasa?

In Congo-Kinshasa, the standard voltage is 220 V. You will need a voltage converter to use your electric appliances there, because the standard voltage in Congo-Kinshasa is higher (220 V) than in the United States (120 V). Using your appliances without a converter could cause damage.

What percentage of Congolese people have access to electricity?

Less than 10% of the Congolese population has access to electricity, 35% in urban areas (50% in Kinshasa) and less than 1% in rural areas. There are also strong regional disparities in access to electricity. But, Congo has an immense development potential thanks to abundant hydrological and solar resources.
