# **Does East Timor have power plants**

## Overview

---

East Timor has 3 power plants totalling 255 MW and 553 km of power lines mapped on OpenStreetMap. If multiple sources are listed for a power plant, only the first source is used in this breakdown. Statistics on the electricity network in East Timor from OpenStreetMap. Does East Timor have electricity?

The Hera power station was built to supply to the north coast of the country, while the Betano power station supplies electricity to the south coast and the Inur Sakato thermal power station provides electricity to the Oecusse District. ^ "East Timor has electricity across almost its entire territory".

Which power stations are in East Timor?

The following lists power stations in East Timor . The Hera power station was built to supply to the North coast of the country, while the Betano power station supplies electricity to the South coast and the Inur Sakato thermal power station provides electricity to the Oecusse District.

Is biomass a source of electricity in East Timor?

Traditional biomass – the burning of charcoal, crop waste, and other organic matter – is not included. This can be an important source in lower-income settings. East Timor: How much of the country's electricity comes from nuclear power?

Nuclear power – alongside renewables – is a low-carbon source of electricity.

What is the primary sector of employment in East Timor?

The agriculture sector employs 80% of East Timor's active population. In 2009, about 67,000 households grew coffee in East Timor, with a large proportion of those households being poor. East Timor is part of the Timor Leste-Indonesia-Australia Growth Triangle (TIA-GT).

Will timorgap supply natural gas to three power plants?

In this context, TimorGAP, the country's national oil company, awarded a tender in March 2020 to Wood Group Kenny Energy to undertake the feasibility study for supplying natural gas to the three power plants in Hera, Betano, and Oé-Cusse. This study is expected to be completed by October 2021.

## Does East Timor have power plants
