

SolarMax Pro Energy Storage Systems

French hollow photovoltaic panel manufacturer

Overview

Are our solar panels made in France?

Not all our panels are produced in France (yet). We select the world's best factories based on strict environmental and social criteria. Our panels are certified low-carbon. It's the least we can do. Our panels are built to last: the PV performance is guaranteed 30 years. Our technical teams are available to support you for free, for life.

Who makes Photowatt solar panels?

Founded in 1979, Photowatt has established itself as a manufacturer of high-efficiency photovoltaic products. The company specializes in producing solar panels, including bifacial and monofacial types, and emphasizes low-carbon production methods.

What is a photovoltaic power plant?

A photovoltaic power plant is composed of various elements: solar panel arrays, a transformer and delivery station, a fire tank, outdoor fences and traffic lanes. How do I know if my plot is eligible for an agrivoltaic project?

Our teams will first review your needs and agricultural practices with you, to offer you the most suitable solution.

How many PV panels will holosolis produce a year?

We will produce 10 million PV panels per year equivalent to the energy needs of 1 million homes. Holosolis will accelerate innovation across the entire photovoltaic value chain, from raw materials to recycling. Our products are designed for the following markets:.

Are solar panels safe in France?

In France, solar panels and inverters must comply with specific standards and certifications to ensure their safety and performance. This includes standards

set by the International Electrotechnical Commission (IEC), such as IEC 61215 for crystalline silicon solar panels and IEC 61646 for thin-film solar panels.
