## **Germany battery exchange cabinet site**

## Overview

---

Where to open a battery swap station in Germany?

To open a battery swap station in Germany, NIO partnered with Sortimo, the operator of one of the largest and most modern charging parks in Europe. NIO first battery swap station in Germany is located in Zusmarshausen. NIO will perform the final testing and calibration of the battery swap station.

When did Nio open a battery swap station in Germany?

NIO officially opened Germany's first battery swap station on September 28. The opening of the battery swap station comes even before the Chinese electric vehicle maker officially enters the German electric vehicle market on October 7.

How are battery swap stations installed?

The battery swap stations are installed under the supervision of a qualified specialist company, which takes care of the structural requirements and, if necessary, the power connections. Specifications for a standard battery swap station for e-cars (small hub) and e-buses (big hub: as of 2019):
