

SolarMax Pro Energy Storage Systems

Greek Energy Storage Project Cooperation Company

Overview

Why is Greece focusing on energy storage?

Greece has been actively focusing on energy storage since the emergence of the RES “boom” in 2020. The country recognised the pivotal role of energy storage in the energy transition and emphasised its importance in the first iteration of the country’s National Energy and Climate Plan in 2019.

Who financed the Greek recovery and Resilience Project?

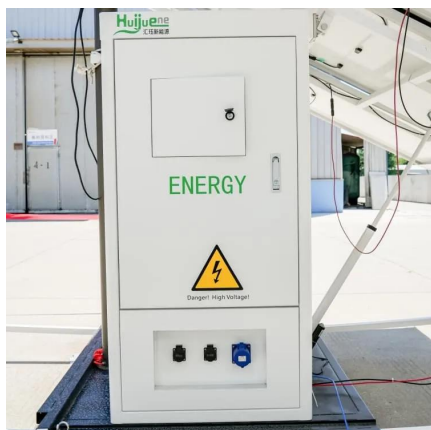

The technical studies were co-financed by the Connecting Europe Facility Program while part of the total cost of the project will be financed by the Recovery and Resilience Fund, following the positive evaluation of the Greek recovery and resilience plan by the European Commission.

Who is eligible to participate in the first energy storage auction?

To be eligible to participate in the first auction, projects must hold a valid Energy Storage Licence while a set of other eligibility criteria (including soundness of the technology used and minimum power injection capacity) must be met.
