Home solar system prices in Norway

Overview

The average market price of such panels ranges from NOK 40,000 to NOK 130,000 for a single-family house and also depends on the location in the country. For a smaller solar cell system intended for summer cottages (Hytt in Norwegian), the cost will be between NOK 40,000 and NOK 100,000. How much do solar panels cost in Norway?

Solar panels in Norway can cost between 40,000 and 130,000 kroner on average for a detached house. In comparison, solar cells cost between 2,500 and 3,000 kroner per square meter, and more design-friendly solar tiles cost between 3,500 and 4,000 kroner per square metre, according to home improvement site bolingsmart.no.

Who makes solar panels in Norway?

As we delve into the solar landscape in Norway, it's essential to explore the supply chain centers, top manufacturers, and the pivotal factors that are shaping the future of solar energy in Norway and beyond. Primroot.com is a leading-edge professional solar panels & inverter manufacturer based in the high-tech hub of Shenzhen, China.

Do solar panels work in Norway?

There currently isn't any research or evidence that suggests the panels have the same effect in Norway, however. According to Thorud, southern and eastern parts of the country are best for panels, but they are also a viable option in the north. "We work on Svalbard, where there is weaker sun, but where the price of electricity is high.
