

How much is the Croatian energy storage grid subsidy

Overview

Croatia will provide some €500 million (US\$534 million) in subsidies for battery energy storage system (BESS) technology, a government minister has said. How much ie-energy aid will Croatia get?

The European Commission has approved €19.8 million (US\$20.1 million) in state aid from the government of Croatia to energy storage operator IE-Energy for a series of grid-connected projects. The aid will be a direct grant to IE-Energy and will cover approximately 30% of capital expenditures for a series of grid-scale battery energy storage systems.

How much does Croatia pay for renewable power plants & batteries?

The Government of Croatia has prepared EUR 60 million in subsidies for businesses to install renewable power plants and batteries. Subsidies for energy storage facilities linked with new production capacities are increasingly becoming a standard in European countries. The latest example comes from Croatia.

How much money does Croatia need to install solar power in 2022?

The Croatian government has allocated €60 million (\$65.6 million) in subsidies for businesses to install 80 MW of renewables and 20 MWh of batteries. Croatia may only install 2.5 MW of PV in 2022.

How much does a project cost in Croatia?

The Croatian Ministry of Economy and Sustainable Development said the goal is for companies to produce energy for self-consumption, which should bring down energy costs. Companies can secure between €100,000 and €2 million per project. Developers can apply for multiple projects, with the maximum amount per single applicant capped at €4 million.

How much money will ie-energy spend on grid-scale batteries?

The money will go towards grid-scale batteries to help transmission system

operators balance the grid. The European Commission has approved €19.8 million (US\$20.1 million) in state aid from the government of Croatia to energy storage operator IE-Energy for a series of grid-connected projects.

How many MW of PV will Croatia install in 2022?

Croatia may only install 2.5 MW of PV in 2022. The Croatian government is providing €60 million for companies in the processing industry and heating sector to install front-of-the-meter and behind-the-meter PV arrays, biomass projects, biogas-fired power plants, and battery storage installations.
