Inverter Price Guide

Overview

A Complete Guide to Inverters and Their Prices in 2025 - Explore the latest inverter types, from pure sine wave to solar hybrids, and compare updated prices, features, and top brands to find the best energy solution for your home or business. How much does a solar inverter cost?

You can expect to spend \$0.15 to 0.24 per watt on a solar inverter, excluding installation costs. Smaller inverters for DIY systems cost less than \$500, while large inverters can cost more than \$3,000. Use a solar panel inverter size calculator to determine the right size for your system. There are three main types of solar inverters for your home.

How much does a string inverter cost?

String inverters cost \$800 to \$2,500 on average. Most homes only require a single inverter, but you could need up to three if you have a larger-than-average residential solar energy system. String inverters work by connecting several solar panels, which send their electricity to a central point where the inverter converts the power.

How much does a microinverter cost?

Microinverters cost an average of \$150 to \$300 each, but you'll need one for each solar panel in your system. They're installed on the underside of each panel and immediately convert electricity as soon as it's generated, helping increase efficiency by limiting energy loss. Microinverters are popular because they perform well in areas with shade.

How to choose a solar inverter?

When selecting an inverter, consider: 1. Power Output: Match your solar panel wattage. 2. Battery Compatibility: If planning for a hybrid solar power system. 3. Warranty & Reliability: Ensure at least 10-15 years of warranty. 4. Brand Reputation: Investing in a trusted brand can guarantee better performance and durability.

How much does it cost to replace an inverter?

If the warranty for your inverter has expired, minor repairs can save cash and extend the inverter's life span. A replacement runs \$200 to \$500 plus the cost of the inverter. You'll want to replace your inverter if:.

Which solar power inverter is best?

1. Efficiency: 98.4% 2. Price: ~\$2,000 3. Best For: Small homes 3. Enphase IQ 7A Microinverter 1. Efficiency: 97% 2. Price: ~\$150 per unit 3. Best For: Panel-level optimization For more details, check out SolarClue Blog to compare the best solar inverters for 2025. How to Choose the Right Solar Power Inverter?

When selecting an inverter, consider:

Inverter Price Guide
