

SolarMax Pro Energy Storage Systems

Lithium battery after-sales power supply

Overview

Are lithium-ion UPS Batteries A good choice?

Lithium-ion UPS batteries offer a range of benefits that make them an ideal choice over other UPS battery chemistries, such as extended lifespan, increased power density, smaller footprint, and increased cycle life. Lithium battery backup solutions are available in multiple lithium chemistries to support different UPS systems.

Are lithium battery backup solutions available in different chemistries?

Lithium battery backup solutions are available in multiple lithium chemistries to support different UPS systems. The various lithium-ion battery chemistries supply a wide range of power densities, energy ratings, and safety attributes.

What is a lithium-ion battery backup solution?

Lithium-ion battery backup solutions offer extended life spans compared to VRLA and Pure Lead batteries – without the price hike you see with 20-year VRLA and wet cell batteries. Clients searching for reliability and superior life often turn to Mitsubishi Electric lithium-ion UPS battery solutions.

Is lithium ion a good backup power solution?

A Total Cost of Ownership (TCO) Analysis shows lithium-ion as a smart and efficient backup power solution over the lifetime of the equipment. With a 40-60% smaller footprint and 60% lower weight, lithium battery backup solutions for UPS systems take up less space that can be leveraged for critical equipment and weigh less in transport.

How long does a lithium battery last?

An ideal UPS lithium battery can support critical functions during an outage consistently over a decade (10 years) before a replacement is required. Lithium-ion battery backup solutions offer extended life spans compared to VRLA and Pure Lead batteries – without the price hike you see with 20-year

VRLA and wet cell batteries.

Does Mitsubishi Electric offer lithium-ion battery backup products?

Mitsubishi Electric offers multiple lithium-ion battery backup products to protect your critical operations. Among these are our lithium-ion battery cabinets, each with its own virtues, depending on your particular runtime requirements, UPS size, and power needs.
