

SolarMax Pro Energy Storage Systems

Mali Energy Storage Power Station Investment Company

Overview

What is Albatros energy Mali?

Albatros Energy Mali S.A (AEM) independent private power project is a 90 megawatt (MW) heavy fuel oil power station built in Kayes, western Mali. It is Mali's first IPP to feed into the national grid. The power station consists of 6 Caterpillar diesel reciprocating engines. The project achieved financial close in June 2017.

How a decentralized energy supply works in Mali?

The small size and dispersed locations of villages in Mali for a long time made off-grid decentralized mechanical and electric energy supply the only viable option. A multifunctional platform consists of a 10-hp diesel engine that, as desired, can power a mill, a generator, a pump or other devices mounted on the same rail.

When did the Mali energy project close?

The project achieved financial close in June 2017. Construction commenced in July 2017, and was commissioned in October 31st 2018, ahead of schedule. It is providing a much needed sustainable energy source allowing an increased access to electricity for Mali's citizens and enabling industries to grow.

What is the energy strategy of Mali?

The general energy strategy of Mali focuses on the development of local resources such as hydropower and solar energy in order to reduce petroleum imports. Objectives of the National Energy Policy regarding renewable energy are: Promotion of RE.

What is Mali's first IPP?

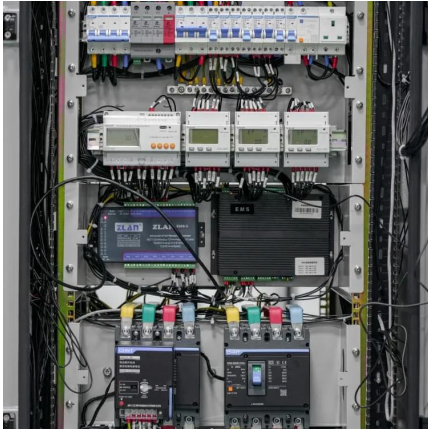

It is Mali's first IPP to feed into the national grid. The power station consists of 6 Caterpillar diesel reciprocating engines. The project achieved financial close in June 2017. Construction commenced in July 2017, and was commissioned in

October 31st 2018, ahead of schedule.

Mali Energy Storage Power Station Investment Company

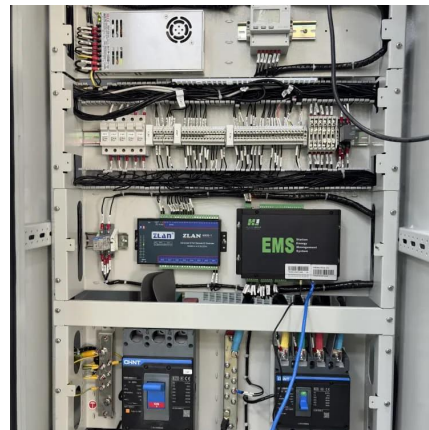

25% electricity boost for Mali as EUR122 million power station opens

AEM's new power station is in the Kayes region of Western Mali, one of the country's most important mining hubs. Mali's economy will benefit from having a reduced power import bill, ...
