

**SolarMax Pro Energy Storage Systems**

# **New energy storage projects in Israel**

## Overview

---

Israel has awarded 1.5 GW of energy storage contracts across 11 projects, with a total investment of \$840M. The projects, set to be operational by 2027, will enhance renewable energy integration. How many high-voltage energy storage projects are there in Israel?

To support this transition, Israeli network operator Nega Company ran a tender in July 2024 which attracted offers from 11 bidders for the construction and operation of 29 high-voltage energy storage projects, totaling approximately 4 GW with each project offering a storage capacity for at least four hours.

How many mw can a battery store in Israel?

Israeli renewable energy developer Enlight has won grid connection rights for 300 MW of battery storage capacity in a national tender, enabling the construction of systems that can store between 1,300 and 1,900 MWh of energy.

How much does it cost to build a storage facility in Israel?

The two facilities – Neot Smadar and Ohad in southern Israel – will operate under regulated tariffs for five years before gaining merchant market access. The projects must begin operations by 2028, with construction costs estimated at \$210-250 million. This latest award accounts for 20% of the capacity allocated in Israel's first storage tender.

What is the Israeli energy storage Council?

Based at Bar-Ilan but to be run in conjunction with the Technion-Israel Institute of Technology in the northern city of Haifa, the body will oversee the development, training, and commercialization of energy storage technologies.

Will Israel achieve a 40% share of renewables by 2030?

Tender Israel is aiming to achieve a 40% share of renewables in the country's

power mix by 2030, with the objective to be met through the installation of 18 GW to 23 GW of solar projects, coupled with 5.5 GW/33 GWh of storage capacity.

How much money does Israel spend on a new research institute?

The institute's innovative research infrastructure will serve all researchers in Israel, and its establishment is very significant news." The Energy Ministry provided NIS 100 million (\$28.4 million) for the new institute, with Bar-Ilan funding the remaining NIS 30 million (\$8.5 million).

## New energy storage projects in Israel
