

**SolarMax Pro Energy Storage Systems**

# **North America s largest behind-the-meter energy storage power station**

## Overview

---

NRStor C&I L.P. ("NRStor") to launch the Experion® Energy Program, which will create the largest behind-the-meter (BTM) energy storage deployment to date in North America. Does Electrify America have a battery energy storage system?

Electrify America, one of the largest fast-charging networks in the U.S. (part of the Volkswagen Group), announced that it installed onsite, behind-the-meter battery energy storage systems (ESS) at over 140 DC fast charging stations around the country, including more than 90 installations in California.

What is Honeywell and NRStor's BTM battery energy storage agreement?

Honeywell and NRStor's agreement offers energy storage as a service to commercial and industrial customers. Under the agreement, they will develop and operate 300 megawatts (MW) of BTM battery energy storage systems (BESS) across the U.S. and Canada, starting in early 2020.

What is Honeywell's BTM battery energy storage system?

Honeywell and NRStor's BTM battery energy storage system is a 300 MW solution that will be developed and operated across the U.S. and Canada starting in early 2020. These systems provide customers with electricity cost savings, improved sustainability, and resiliency, all operated remotely.
