

**SolarMax Pro Energy Storage Systems**

## **Outdoor battery cabinet DC module**

## Overview

---

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.

What is an outdoor Battery Cabinet?

HindlePower's Outdoor Battery Cabinet is constructed of extremely durable injected foam panels that achieve a level of thermal performance not previously seen in traditional battery cabinets. Feel confident your batteries will maintain 65°F for outdoor ambient temperatures down to -40°F and 77°F for outdoor ambient temperatures to 122°F.

Is hindlepower outdoor Battery Cabinet certified?

HindlePower's Outdoor Battery Cabinet is certified to IBC 2012, CBC 2013, and IEEE 693 to the highest levels. See our certification document [here](#) for more information. Outdoor NEMA 3R modular design easily expands and can accommodate any configuration of batteries and DC power equipment.

What kind of batteries can be stored in a rack mount cabinet?

All-in-one design, store the leading brands of 19" rack mount type lithium batteries, inverters and controllers. DC48V powered air conditioner, heat exchanger or TEC coolers are optional, which can cool down the devices installed inside the cabinet. Battery Storage Space based on the battery specification.

How many modules are in a pwrCell Battery Cabinet?

Inside of the PWRcell Battery Cabinet, battery modules are stacked two deep on three levels, allowing for up to six modules to be connected in series. You can upgrade an existing PWRcell Battery Cabinet by adding Battery Modules

and a Module Spacer (APKE00008).

Why do you need an outdoor Battery Cabinet?

The cabinet is designed specifically to protect it from human damage, water, dust and other damages. Climate controlled products such as air conditioners, heat exchanger, or TEC coolers are installed on outdoor battery cabinet for keeping a stable temperature inside cabinet so as to increase service life and stability of battery.
