Pack lithium battery container

Overview

What is the best packaging for lithium batteries?

Air Sea Containers offers UN approved Lithium Battery packaging suitable for the shipment of Lithium Ion and Lithium Metal Batteries via any mode of transport. Our best packaging for shipping lithium batteries is the 4DV Plywood Boxes, which are ideal for batteries over 12kg.

Are lithium-ion battery storage containers safe?

Engineered to ensure secure containment and charging, these meticulously crafted lithium-ion battery storage containers provide comprehensive safeguarding, including 90-minute fire resistance against external sources.

What are energy storage lithium battery packs?

Energy storage lithium battery packs are based on lithium iron phosphate batteries. They are a lithium battery system designed in series with modules, featuring a reliable BMS system and high-performance equalization technology to improve overall safety and service life.

Does pack & send send lithium batteries?

Pack & Send prefers to expertly package lithium battery containing items ourselves to ensure the maximum safety measures are in place. Note, also that we can't send lithium batteries on their own, but we may be able to send these within the device they are powering.

Where can I safely transport a lithium-ion battery?

Welcome to DENIOS, your premier destination for securing safe transportation and storage of lithium-ion batteries. With our range of advanced BatterySafe™ cases and aluminum containers, we prioritize the protection of your assets throughout every stage of their lifecycle.

How much energy does a battery pack hold?

The model box used is the "XL" (LSBX0155) and the total capacity/energy of the battery pack is 7000 Wh (7 kWh). Never before has a fire containment system been successfully tested to contain such a high energy load. Visit our other Battery Box website for more information !
