# **Poland detonates batteries in telecommunications base stations**

## Overview

---

Why is Germany deploying anti-aircraft missile batteries at Rzeszow-Jasionka Airport?

The Rzeszow-Jasionka Airport in southeastern Poland, a key logistics hub for humanitarian and military aid to Ukraine, is now under the protection of two Patriot anti-aircraft missile batteries. These systems, deployed by Germany, represent a significant enhancement to NATO's integrated air defense along its eastern flank.

Did Germany send two Patriot missile defense batteries to Poland?

According to the Polish Ministry of Defence (MON), Germany has sent two Patriot missile defense batteries from the 21st Air Defense Missile Group of the Luftwaffe in Sanitz, located in Mecklenburg-Vorpommern, to Poland. Along with the batteries, approximately 200 German soldiers have also arrived in Poland.

Will Poland transfer a Patriot battery to Ukraine?

Polish Prime Minister Donald Tusk announced in April that there was no possibility that Poland would transfer a Patriot battery to Ukraine. This is because Poland is only at the early stages of implementing these systems into the armed forces - the first two batteries are expected to reach operational readiness by the end of this year.

Will the US battery be replaced by a Polish battery?

"The US battery will be replaced by a battery from a different part of the world," Tomczyk wrote on the X platform. "Poland has not agreed to the transfer of a Polish battery. "Polish Patriots defend the Polish sky and this will not change," he added.

Where are German Patriot air-defense batteries based?

(Omar Marques/Getty Images) WARSAW, Poland — As two German Patriot air-

defense batteries are set to begin full operations in Rzeszów, south-eastern Poland, the two countries' defense ministers met today near the town that has become a logistics hub for Ukraine aid.

Why is Germany deploying two Patriot batteries to Rzeszów?

Germany has deployed two Patriot batteries to Rzeszów along with around 200 German troops to protect the city's military logistics infrastructure. Once the systems reach full operational capacity on Jan. 27, they are to ensure anti-missile protection over the area for at least six months, according to Germany's Ministry of Defense.
