## **Price of photovoltaic panel installation in France**

## Overview

---

In 2024, the average price of a 1 kW photovoltaic panel is around €500 to €700, depending on the technology chosen. For a 150 m<sup>2</sup> home, the total investment (including panels, inverter and installation) is usually between €6,000 and €10,000. How much does a solar installation cost in France?

Shadows can significantly reduce the energy output of your solar panels. The price of a solar installation depends on several factors such as power (expressed in kilowatt-peak, or kwc), the technology chosen and installation costs. On average in France, count between 2500 and 4000 euros excluding tax per kwc for a residential installation.

Are solar panels a good investment in France?

As electricity prices continue to soar in France - up 60% in four years - more people are turning towards solar panel kits, which promise to help users save on energy costs and installation prices. The estimated extra cost of electricity in 2024, compared to 2020, is €540 per household per year.

What is the VAT rate for solar panels in France?

A reduced VAT rate of 10% instead of the standard 20% applies to solar panel installations in France. This measure is available for residential properties used as primary homes. Many regions in France offer additional subsidies for solar panel installations. These initiatives can significantly lower initial costs.

Should you install solar panels in France?

Installing solar panels in France is a promising solution for reducing electricity costs and contributing to environmental sustainability. However, before starting, it is important to review legal aspects, obtain the necessary permits, and take advantage of government subsidies.

How much does a photovoltaic panel cost?

The cost of photovoltaic panels has fallen significantly. In 2024, the average

price of a 1 kW photovoltaic panel is around €500 to €700, depending on the technology chosen. For a 150 m<sup>2</sup> home, the total investment (including panels, inverter and installation) is usually between €6,000 and €10,000.

Can you sell solar panels in France?

In France, it is possible to sell the electricity produced by your solar panels to EDF or another energy supplier. The feed-in price depends on the power of your installation and the conditions of the contract. The average lifespan of solar panels is around 25 years.
