Rated power 350w inverter

Overview

What is a SSW 350 watt inverter?

SSW Series 350 watt high efficiency pure sine wave inverters convert 12 VDC to 115 VAC at an output frequency of 60 Hz. These compact and lightweight models feature soft start technology and 2X the surge. Economically priced for reliable pure sine wave power. Includes 2 three prong outlets and a USB charging port.

How many Amps does a 350-watt inverter draw?

A 350 Watt inverter draws about 35 Amps on 12 Volts (based on maximum power out and minimum Voltage in). All the DC hook-ups will go to the bus bars. The passage also mentions that a 1kW inverter draws about 100 Amps, but it is not relevant to the question.

What is a rated power inverter?

Rated Power – this refers to the maximum AC power that the inverter can produce and is usually included in an inverter's model number. For example, SMA's STP 15000TL inverter has a rated power of 15,000W or 15kW. Central Inverters – this type of inverter usually has a power rating that ranges from 100kW to a few megawatts.
