

# **Romania tender for base station communication batteries**

## Overview

---

Will Romania re-launch a battery energy storage tender?

On 8 February, the Ministry of Energy of Romania announced the re-launch of its tender for battery energy storage projects and investments in the manufacturing sector for the production of energy storage equipment and solar panels.

Will Romania reopen a call to support battery storage projects?

Romania's Ministry of Energy has reopened its call to support projects of battery storage for renewable energy integration, seeking at least 240 MW and 480 MWh of resources. The original call, which referred to at least 620 MWh, was expected to see projects selected by the end of 2023, according to reports.

How much will Romania spend on a battery energy storage project?

To achieve this goal, the Romanian government will conduct both tenders through competitive bidding. A total of €79.6 million is allocated for the battery energy storage project. €199 million will be spent on related manufacturing capacity. Of this amount, €149.25 million will be used for new cell production, assembly and recycling facilities.
