Where do solar inverters come from in South Africa?

South Africa's solar inverter supply chain is a mix of local manufacturers, importers, and distributors. Local production is limited—most inverters are imported from global hubs like China, Europe, and the U.S. Importers and distributors are the real MVPs here, bringing these products from factories to your doorstep.

Which inverter brands are available in South Africa?

"They are growing rapidly and we are very happy to work with them." Two other well-established inverter brands in South Africa are Deye and SunSynk, which have become highly reputed for their configurability and compatibility with a wide range of batteries. Hattingh said these two brands had distributors that also offered solid aftersales support.
