

SolarMax Pro Energy Storage Systems

South Sudan Energy Storage System Procurement

Overview

What is a solar power plant in South Sudan?

Image: The recently launched 20MW solar energy plant in South Sudan.

Credit: Ezra Group A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes.

How much money does South Sudan need to invest in electricity?

The target calls for an extremely ambitious investment program of US\$0.7 billion for the electricity sector as a key driver of growth in South Sudan. None or very little of the ambitious target has been achieved due to lack of funds and lack of capacity to implement the programs. 32.

Why is South Sudan struggling to provide electricity to its citizens?

According to a 2024 sciencedirect.com report, South Sudan struggles to provide its citizens access to electricity despite having abundant energy resources, particularly fossil fuels.
