

**SolarMax Pro Energy Storage Systems**

# **Swiss photovoltaic solar panels**

## Overview

---

What products does Swiss solar offer?

Wide range of products: Swiss Solar offers a wide range of photovoltaic panel products, including mono and polycrystalline panels, with power ranges from 270W to 540W, which means they can be used for a variety of applications, from residential solar systems to commercial and industrial projects.

Who makes Swiss solar modules?

SSWISS GROUP AG manufactures high-quality solar modules and is leading and globally active technology company. SWISS solar modules are engineered in Switzerland and meet the highest quality standards . As an internationally recognized premium brand.

What are Swiss solar panels used for?

Swiss Solar panels can be used in a variety of applications, including commercial and industrial power generation, residential building power supply, and street lighting and road signaling systems.

What is the most powerful solar module in Switzerland?

Find out everything about the M490, our most powerful solar module in Switzerland, which perfectly combines efficiency and aesthetics. Bifacial modules use not only direct sunlight on the front side, but also indirect and diffuse light on the rear side. Your Swiss solar manufacturer for innovative solar modules and photovoltaics.

Are Swiss solar panels a good investment?

In conclusion, Swiss Solar panels are a viable option to obtain clean and sustainable electric power from renewable sources, and can be a good long-term investment for companies or individuals looking to reduce their electricity costs and carbon footprint.

Why should you choose Swiss Solar AG?

The state of the art design of solar the packaging and solar modules makes the product emotionally attractive to the most demanding customers. Stylish packaging sets the product apart from other producers. To be part of SWISS SOLAR AG is to always be ahead.
