

SolarMax Pro Energy Storage Systems

**Use the energy storage device
to open the front**

Overview

In this segment, there are three Energy Devices, which need to be positioned beside their respective terminals. Everything needs to be done in an exact order, so I highly recommend you follow the walkthrough.

How do you use energy storage devices in Genshin Impact?

Players must collect three Energy Storage Devices and use them on three different Terminals to remove the barriers blocking the Research Terminal. The step is quite simple and easy to follow as the Research Terminals are marked on the map in Genshin Impact.

How do I unlock the energy storage device?

Once the Drive Valve was operated, go to the Geode Mine Shaft by heading deeper within the tunnel. After talking to Caterpillar, acquire the energy storage device and unlock the research terminal ahead. There are three storage devices laying around, one each for the locked terminals scattered around the Mine Shaft!.

How do I activate all the energy storage terminals?

So, let's see what steps you need to take to activate all the terminals:
Research Terminal #1: Take the first Energy Storage Device and move forward and to the right. You'll have practically no other options, so you'll know where to go right away.

How do I power up energy storage?

However, you need to power up the shutdown Energy Storage in front of you to do so! To power the storage, get behind the Energy Terminal, and work your way towards the cart with the yellow-green ores located to your left. There should be a filled Energy Storage sitting atop it, so pick it up!.

How do you find the last energy storage device?

Place the energy storage device near it and break the second seal, which will open more paths. Once that is done, go back to your original spot to pick up

the last device. After collecting the third energy storage device, go straight and turn left at the end. You will find the last research terminal near a broken mine car.

How do you collect energy storage devices?

Place the energy storage device near it and break the second seal, which will open more paths. Once that is done, go back to your original spot to pick up the last device. After collecting the third energy storage device, go straight and turn left at the end.
