

**SolarMax Pro Energy Storage Systems**

# **What is the energy storage system of the West Asia Power Plant**

## Overview

---

Can a floating energy storage solution be deployed in South East Asia?

This will be the first ever deployment of a floating energy storage solution in the South East Asia region. It will involve placing ten Wärtsilä GridSolv Max systems, supported by the company's advanced GEMS energy management platform, aboard a floating barge.

Is energy storage the future of Southeast Asia?

As renewable energy sources will play a more prominent role in the region's sustainable development, the integration of energy storage systems in Southeast Asia is imminent. Energy storage seems to be facilitating the transition towards clean and sustainable energy, particularly for islands and rural areas within the region.

Which energy storage systems are being installed in Thailand?

Thailand installed two sets of KSTAR 5kW+10kWh energy storage systems (BluE-5000D) in December 2020. The storage already provides a clean and stable night-time power supply at the Chumpoll Temple in Ayutthaya Province, Thailand.

What is a battery energy storage system?

A battery energy storage system is a power station that uses batteries to store excess energy. A BESS is a potential unsung hero in the world's efforts to pivot to more renewable energy sources in the power sector.

Does ASEAN have a policy for promoting battery energy storage?

According to the ASEAN Centre for Energy (ACE) Policy Brief: Enabling Policies for Promoting Battery Energy Storage in ASEAN, only a few AMS have related policies. For instance, Thailand's Ministry of Energy presented its 'Energy 4.0' strategy by integrating disruptive energy technologies such as energy storage systems.

## Does ASEAN need energy storage?

The ASEAN bloc has set the targets of 23% renewable energy in its Total Primary Energy Supply (TPES) and 35% renewable energy in ASEAN installed power capacity by 2025. This means that energy storage is required. Additionally, without BESS acceptance on a larger level, the needed funds won't materialise, and fewer BESS will be built.
