

Where can I find photovoltaic solar power for home use in East Asia

Overview

Where can I find more solar energy resources?

Find more solar energy resources from SETO. Visit our Solar Energy Research Database. Learn more about SETO's solar energy research. SETO resources can help you figure out what's best for you when it comes to going solar. Consider these questions.

Is solar energy a good investment?

Investments from the U.S. Department of Energy Solar Energy Technologies Office (SETO) have made solar energy more affordable for American consumers. You may be considering the option of adding a solar energy system to your home's roof or finding another way to harness the sun's energy.

Can you buy a solar energy system with a mortgage?

New homeowners can add solar as part of their mortgage with loans available through the Federal Housing Administration , which allow borrowers to include financing for home improvements in the home's purchase price. Buying a solar energy system makes you eligible for the Solar Investment Tax Credit, or ITC.

Where does community solar go?

Your Community Solar subscription goes with you anywhere in our Texas service area. Community Solar is for everyone — homeowners, renters, and business owners. If you want solar, it's yours. Using sun-tracking technology for peak efficiency, our solar panels generate 25% more energy than fixed rooftop systems.

Should you buy or buy a solar system?

Consumers have different financial options to select from when deciding to go solar. In general, a purchased solar system can be installed at a lower total

cost than system installed using a solar loan, lease, or power purchase agreement (PPA). If you prefer to buy your solar energy system, solar loans can lower the up-front costs of the system.

Are solar panels affordable?

Since 2008, hundreds of thousands of solar panels have been installed across the country as more and more Americans choose solar energy for their daily lives. Investments from the U.S. Department of Energy Solar Energy Technologies Office (SETO) have made solar energy more affordable for American consumers.
