

**SolarMax Pro Energy Storage Systems**

## **Which battery cabinet replacement is of good quality**

## Overview

---

Metal cabinets are generally more durable than plastic ones. Check that the hinges, locks, and handles are sturdy. They often wear out first with frequent use. Additionally, look for cabinets with powder-coated finishes. These finishes make the cabinet look better and protect it from rust and corrosion. Are battery storage cabinets safe?

Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment. CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them.

What are cellblock battery storage cabinets?

CellBlock Battery Storage Cabinets are a superior solution for the safe storage of lithium-ion batteries and devices containing them. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.

Should you store lithium-ion batteries on-site?

The dangers of improperly storing lithium-ion batteries have been well-documented over the past decade. Without the right separation, climate, and safety measures in place, storing batteries on-site poses a dormant but potentially expensive and devastating threat to your work environment.
